## Here you'll find the tools you need to make for KitchenAid

The KitchenAid Brand Book lays the foundation for how the KitchenAid story can come to life. It's important to start with an understanding of that foundation, but with all things in the kitchen, there comes a time to really dive in, tinker and perfect—adding in a dash of this and a pinch of that until the finished product is ready to share.

The Creative Style Guide builds on the Brand Book, laying out the specific rules and guidelines you need to know when creating work for the brand that adds to the overall KitchenAid story.

# Logo Overview

The lockup is the most fundamental expression of the brand. Maintaining its quality and legibility is essential.

## MINIMUM CLEARSPACE

Clearspace surrounding the logo essentially represents the logo’s parking spot. For maximum impact, always position the logo with room to breathe.

Clearspace around the KitchenAid logo is determined using the size of the “K” in KitchenAid. The example shown represents the minimum clearspace.

## PLACEMENT

The placement of the logo is flexible based on asset specs and channel optimizations.

## MINIMUM SIZE

The size of the logo will vary depending upon space available. The minimum size is 1.5 inches wide for print and 90 pixels for digital. All other symbols, text and graphic elements should be kept clear of the boundary shown.

## LOGO DON'TS

The integrity of the KitchenAid logo must be respected at all times. Don’t stretch, condense, crop or otherwise morph or manipulate it. Any modification of our logo confuses its meaning and diminishes its impact.

LOGO

MINIMUM CLEARSPACE

MINIMUM SIZE  
1.5 inch wide  
90 pixels wide

DON'T distort in any way

DON'T stretch in any way

DON'T create or use symbols as part of the logo (this includes the stand mixer icon).

DON'T change the color of the logo

DON'T link words to the logo

DON'T place the logo on busy backgrounds

DON'T add effects to the logo

DON'T place our logo within a shape

DON'T shorten the name

## Logo Colors

Our red logo lockup can live on both white and light gray backgrounds.

When a layout or placement calls for a black background, change the lockup color to white and vice versa. On photo backgrounds, use either black or white logo depending on which adds more contrast/legibility.

Red should no longer be used as full-bleed background.  
For specific color values, see page 8.

Examples shown are meant to indicate larger backgrounds. The logo should never be locked up in a rectangle on creative assets.

The KitchenAid logo is displayed in a bold, red, sans-serif font. The word "Kitchen" is in a standard weight, while "Aid" is in a bolder weight. A registered trademark symbol (®) is located at the top right of the "d".

RED LOGO ON WHITE BACKGROUND

The KitchenAid logo is displayed in a bold, red, sans-serif font. The word "Kitchen" is in a standard weight, while "Aid" is in a bolder weight. A registered trademark symbol (®) is located at the top right of the "d".

RED LOGO ON GRAY BACKGROUND

The KitchenAid logo is displayed in a bold, white, sans-serif font. The word "Kitchen" is in a standard weight, while "Aid" is in a bolder weight. A registered trademark symbol (®) is located at the top right of the "d".

WHITE LOGO ON BLACK BACKGROUND

The KitchenAid logo is displayed in a bold, black, sans-serif font. The word "Kitchen" is in a standard weight, while "Aid" is in a bolder weight. A registered trademark symbol (®) is located at the top right of the "d".

BLACK LOGO ON WHITE BACKGROUND

# Primary Brand Colors

Color is a powerful means of visual identification. Consistent use of our identity colors builds visibility and recognition for the KitchenAid brand.

This is the KitchenAid color palette made to provide the greatest clarity and visibility and to always maintain a strong contrast between the logo and the background imagery. The colors must never be altered, modified or re-created.

## USAGE BREAKDOWN

In order to maintain brand consistency, mirror this breakdown in creating any visual communication. Light gray is the primary background outside of photography. Black, white and dark gray are used to create balance and are used equally in type applications, depending on background.

The KitchenAid red should be reserved for critical moments that warrant a highlight or a relevant accent. This means the full-bleed red background should no longer be used.

USAGE BREAKDOWN

# Primary Brand Fonts

## AVENIR FAMILY

Avenir is the KitchenAid typographic voice for all creative and promotional applications. It is an essential part of the KitchenAid personality and is used primarily for display purposes in headlines and subheads.

The Avenir family comes in a variety of weights that allows us to communicate in a clear and straightforward manner.

Utilizing the various weights of the font allows us to differentiate information and allows our audience to naturally follow the flow of content.

## ALTERNATIVE WEB FONT

Arial or Helvetica Neue are recommended as the free web font alternative to Avenir. Optimized for web and mobile interfaces, both Arial and Helvetica Neue have excellent legibility characteristics in its letterforms. Like Avenir, they are sans serif typefaces with an approachable appearance.

## AVENIR LIGHT

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890#+-@©=%/>([?!])...

## AVENIR ROMAN

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890#+-@©=%/>([?!])...

## AVENIR BLACK

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890#+-@©=%/>([?!])...

## Kitchen DO's

Get inspiration from interior design experts and architectural trends to identify a fundamental space layout. Create mood boards to help set the tone

Balance color choices by selectively deploying neutrals and accents. Hardware does not all have to match, but the palette should feel cohesive.

Use genuine materials (marble, wood, metals).

Keep choices and overall direction simple.  
The room's infrastructure should provide a backdrop for Makers and appliances.

Use hardware, lighting and furniture as accents in building out a believable and homey space.

## Kitchen DON'Ts

**DON'T** use kitchen designs, materials or decor that are dated or old-fashioned.

**DON'T** overwhelm the look and feel with too many patterns and textures.

**DON'T** include inexpensive materials or accessories.

**DON'T** include details that don't add value (remove ornate shelf brackets or quirky lamps that may draw attention). Avoid highly decorative choices that distract from the scene or product.

**DON'T** use furniture, lighting or accents that clash with the space or with each other.

# Grammar

In advertising, copy needs to be impactful and brief while also being aligned with the Brand Personality & Voice.

## GENERAL GUIDELINES

- **CAPITALIZE “MAKER”**

In every instance, Maker is capitalized.

- **AVOID USING “OUR” OR “WE”**

Do not personify the brand in this way.

Rework sentences to avoid this structure.

- **NEVER MAKE KITCHENAID POSSESSIVE**

Do not use “KitchenAid’s” in copy lines.

Rework sentences to avoid this structure.

- **AVOID PERIODS IN HEADLINES/SUBHEADS**

Headlines and subheads never have periods.

- **AVOID PUNCTUATION IN HEADLINES/SUBHEADS**

Where possible, avoid any punctuation. In headlines and subheads, use design elements (like color or line breaks) to add clarity rather than adding commas.

- **KEEP SENTENCE STRUCTURE SIMPLE**

Avoid adding too many clauses or writing overly complex sentences and lists. Keep copy as short and to-the-point as possible, with a natural cadence so copy feels human and relatable. (Note: For some relevant executions outside traditional advertising, like recipes, it is most important for copy to be clear and straightforward rather than simple and short.)

## SHOPPER OLA

FRAME 1

Maker-centric product photography connects to Maker benefit.

Product benefit is clearly stated in a headline under 4 lines.

FRAME 2

Pricing design is clear with the dollar sign as a small, superscript element. This all works to create a clear hierarchy of information.

FRAME 3

Branding and CTA button are consistent, frame to frame.

FRAME 4

# Promotions DON'Ts

DON'T use unapproved headline treatments or specialty color backdrops when not telling a color story.

DON'T use clip art or off-brand graphics.

DON'T use old creative layouts.

DON'T use cliché messaging.  
DON'T overuse red background.

DON'T use alternate fonts, logo colors or exclamation points.  
DON'T crowd design elements.

DON'T use promotions in place of marks.

DON'T post time-sensitive promotions organically to social feeds.  
DON'T crowd design elements.

DON'T use all red backgrounds.
